

The Beech Tree Bed and Breakfast
UPDATE: 2023 COVID-19 Protocols
Helene and Dan Duffy, Innkeepers

We have your safety and health in mind and hope to see you soon!

We continue to operate with an abundance of caution in light of the continued COVID variants. As this situation is fluid, we will update these protocols as necessary.

Our Protocols:

Face coverings: We respectfully ask you continue to **wear face coverings and social distance in our common public areas if you are not fully vaccinated.**

Self-check-ins/check outs. If we are unavailable to greet you upon arrival you will find your room key in an envelope by the front door along with a map and other information. The key will open the front door and your room. One day prior to your arrival we process your balance and send you an email receipt. Please leave your key in the door when you depart.

Housekeeping: No one will enter your room during your stay. Please leave trash outside your door for disposal. You will find additional wastebasket liners in the bottom of the waste basket. If you need clean towels use the white plastic bag provided in your bathroom to leave used towels outside your door. We will return fresh towels in a plastic bag outside your door as well as any additional supplies you request.

Breakfast in a basket: For your convenience and flexibility we will deliver a breakfast basket to your door at 8:30. Some guests prefer to eat in their room but **please feel free to eat your breakfast outdoors on our patio or porch.** It typically includes juice, Greek yogurt, homemade granola, fresh fruit, and a chef's choice of egg dish and baked good. Each room has its own Keurig coffee maker and small guest refrigerators. We provide coffee, teas, creamers and sugar.
